A Message from the CEO

2020 will be remembered as a year like no other. In the face of adversity and many challenges, health care professionals across the world responded and, acting selflessly, continued to deliver care to their patients. I commend all our staff for their dedication and their work during these difficult times.

At SIH, throughout the year, we too have responded and adapted to the pressures of the COVID-19 pandemic. In doing so we have continued to promote high standards of professional conduct, education, training, and competence through practice of health care professionals from all disciplines.

Ultimately, we exist to protect the public and I am extremely proud of how we have continued to deliver upon this mission.

As we reflect upon these past twelve months and look forward with optimism to 2021, I want to acknowledge the continued progress SIH has made in delivering high quality health care. wish you and your families all the best and happy 2021 new year.

[Coronavirus Vaccine Tracker](#)

www.nytimes.com

Vaccines typically require years of research and testing before reaching the clinic, but in 2020, scientists embarked on a race to produce safe and effective coronavirus vaccines in record time. Researchers are currently testing 64 vaccines in clinical trials on humans, and 20 have reached the final stages of testing. At least 85 preclinical vaccines are under active investigation in animals.

فحص الأجسام المضادة لفيروس كورونا المستجد
Coronavirus (COVID-19) antibody test

أول مره في مستشفيات القطاع الخاص

مستشفى السلام الدولي يقدم خدمة فحص الأجسام المضادة لفيروس كورونا. تحليل الأجسام المضادة لفيروس كورونا المستجد هو تحليل جديد لم يعتمد لتأكيد وجود مناعة ضد الإصابة المستقبلية، كما أنه لا يستخدم لتشخيص الإصابة الحالية، إلا أنه من الممكن أن يشير إلى وجود عدوى سابقة.

Anti-SARS-COV-2 test is a new test that has not been approved to indicate the presence of immunity against future infection, nor it is used for the diagnosis of current infection. However, it may reflect the presence of past infection.
